Subject: DUKE ENERGY INCREASE

Commissioner Wright:

I would like to respectfully ask that these rates not be increased. After the last increase, which had devastated my sister and I. We inherited a house, which is up for sale, so of course we are paying taxes for an unoccupied home, which approximately doubled the taxes to be paid. This home has been up for sale for almost three years due to the economy. We also inherited the mortgage. Another tax increase on this property, will again hurt us greatly. Please rethink this.
